

**4 days Course on “Hydraulic Fracturing” by Engr. Hernan Buijs (Hydraulic Fracturing Subject-matter Expert and Well Stimulation Engineer, Wintershall Dea, Germany)
13th April 2020 to 16th April 2020**

An online course on “Hydraulic Fracturing” was arranged by Student Energy NEDUET Chapter, which was of high interest to petroleum engineering students. The 4 days online course was well-attended by the students and industry professionals which provided them with deep understandings of the basics and advanced topics of Hydraulic Fracturing. The registrations for this event had exceeded our registration limits within two hours of the announcement of this course on our Facebook page.
