

Donation of IPM V10 by Petroleum Experts UK

The cutting-edge, Integrated Production Modeling v.10.0 software package has been recently received by NED University of Engineering and Technology (NEDUET) as a donation from Petroleum Expert Ltd UK to academic institution. NEDUET initially received the IPM v.6.0 software in July 2008, which was later upgraded to v.7.5 in 2010. Nevertheless, v.10, the latest version of this industry standard software, is now a great addition to the Department of Petroleum Engineering. The following softwares are included in IPM V 10:

GAP

PROSPER

MBAL

PVTP

REVEAL

RESOLVE

This significant contribution has not only added to the glory of our institution but it has also opened new opportunities for the students in learning. Moreover, this recent version of software package with worth **£1,399,965.85** is being extensively used by several multinational Oil & Gas companies globally since its release in January, 2016.

More details about the software are available at: <http://www.petex.com>
