

Field Trip to Sujawal Gas and Condensate Field of Mari Petroleum Company Limited

On 19th March 2022, Society of Petroleum Engineers (SPE) NED Student Chapter of Department of Petroleum Engineering organized a field visit to Sujawal Gas and Condensate Field of Mari Petroleum Company Limited. Student members of the society and the faculty members of the Department of Petroleum Engineering Department participated in the visit. The visit to the field proved to be very beneficial. Students got a chance to witness real time operation of the field. Mari Field Management Team gave students a tour of their entire Production and Process facility and responded effectively to the student queries. Overall, the field visit was found to be interesting for the students and provide them knowledge about the working activities, environment and the prevailing conditions of the field and their associated challenges.
