

**Technical lecture “Pressure Testing of Oil and Gas Equipment” by Engr. Silvia PIZZIGONI Production and Planning Engineer, Petrovalves, Italy.
10th May 2020**

Very interesting technical lecture on “Pressure Testing of Oil and Gas Equipment” by Engr. Silvia Pizzigoni (Production and Planning Engineer, Petrovalves, Italy) was arranged on zoom which was also live streamed on our Facebook page. It covered many aspects related to oil and gas industry, several tests, equipment, machines and the integrity and capability to work under pressure in a pressure vessel, which received hundreds of views within few hours of its live streaming.
